

Water Supply and Permitting

Status:

In Progress

IWR Contact:

Robert Brumbaugh (Robert.W.Brumbaugh@usace.army.mil)

Purpose:

IWR is evaluating survey responses from the Regulatory field offices on water supply and permitting

Objective:

to identify current and prospective water supply projects and issues in evaluating environmental impacts.

Benefits:

Provide desired assistance and policy guidance to the field, standardization of permit review where possible, cross pollination of ideas
